### Why do I need to take this class?

Certified irrigation technicians are the field technicians that help install, maintain and repair irrigation systems.

- ▲ Cut and join pipe, know the limitations of different piping systems, and understand basic hydraulics.
- ▲ Layout and install piping and water delivery components; backflow prevention components; mechanical, hydraulic and electrical irrigation controls; and other irrigation system components.
- ▲ Troubleshoot and repair irrigation components and systems.

### Becoming a Certified Irrigation Technician allows you to:

- ▲ Add instant credibility with customers.
- ▲ Increase job opportunities.
- ▲ Demonstrate your commitment to efficient water management.
